

# REGIONAL BIG DAYS IN HUNGARY 2021

**Part one:** 09.06.2021.

**Location:** Transdanubia (Külső-Somogy)

**Attendance :**

Andrea Nagy, György Domonkos, Robert Galcsik and Gabor Kreicsi

**Route :** Balatonlelle – Chapel of Saint Donatus – Látrány - Visz – Csúcs-hegy (NATaCHA–HUN no.: 069) – Karád – Hosszú-Kopasz (NATaCHA–HUN no.: 068) – Kötcsse - Alman-tető (the highest point: 316 m) – Kőröshegy – Balatonföldvár – Balatonszárszó – Balatonszemes – Balatonlelle

**Distance:** 70 km

**Do!** 800 m

**Experience:** This circle was on the Somogy-hills. We started at 9 o' clock from György's house which is in Balatonlelle. The weather was really good with unclouded. We passed a local hill (Chapel of Saint Donatus) near the town. This is a historical and relax place in this area. After cycling across the viniculture and we started the climb to the first NATaCHA. The route from Visz has got some descent and viewpoints. After the latest downhill we arrived to Karád. This is the starting point to the next NATaCHA. We left the village and reached the top which close to the shooting-box. After the top photo Andrea went to other way (by the asphalt road) and we chose the gravel (sometimes sand) roads to the Lake Balaton. Our way had got several steep climbs. After one of them we passed the highest point (which is the Somogy-hills highest point too) the Alman-tető (316 m). Before the other villages we reached the fantastic viewpoint. This was the Viaduct of Kőröshegy. This is the highest and longest viaduct in Hungary. 1872 m long and 88 m high. It was built in 2007. After this attraction we arrived the Lake Balaton. The season of beach has started. We enjoyed the new cycle roads and the felt of the beach system. At 14 o' clock we arrived in Balatonlelle.

**Part two:** 24.07.2021.

**Location:** Börzsöny mountain

**Attendance:**

György Domonkos, David Kreicsi, Robert Galcsik, Gabor Vincze and Gabor Kreicsi

**Route:** Királyrét – Kóspallag – Nagyirtáspuszta (NATaCHA–HUN no.: 049) – Kisirtáspuszta – Nagy-Hideg-hegy (NATaCHA-HUN no.: 048) – Királyrét – Závonyereg (NATaCHA-HUN no.: 051) – Diósjenő – Nógrád – Királyrét

**Distance:** 58 km

**DoI:** 1470 m

**Experience:** This Börzsöny mountain is one of the isolated mountain in Hungary. We started a famous hikerplace: Királyrét. Everybody has got a mountain bike, so Gabor Vincze a special one: fatbike. After a „roller-coaster” we started to climb to the first NATaCHA. This way was evenly climb by asphalt road. On the top we reached a resort include Hotel and swimming pool. It was succeed a short descent to the Kisirtáspuszta which is the station of „forest train”. From this point we started the next climb to the next NATaCHA include several hard climb sections. The weather was sunny, but we had got an „umbrella” due to the trees. The Nagy-Hideg-hegy was the highest point (864 m) and has got a beautiful panorama. After this point we enjoyed the longest descent to the Királyrét which was the refresh point. We took a sandwiches and filled the bottles. After a short break we went to the third NATaCHA include several sections. First was an asphalt, second was a gravel and the last one the asphalt again. Ont he gravel section David’s rear derailleur had a damage. Lucky system we repaired. After the pass we had got a long descent to the Diósjenő and left other village (Nógrád) reached our car in Királyrét.

**DUNA-IPOLY NEMZETI PARK**

# NAGY-HIDEG-HEGY

DUNA-IPOLY NEMZETI PARK IGAZGATÓSÁG  
WWW.DUNAIPOLYHU

**ÜDVÖZÖLJÜK  
A NAGY-HIDEG-HEGYEN!**

A 864 méter magas Nagy-Hideg-hegy a Börzsöny harmadik legmagasabb hegycsúcsa. Csodálatos kilátás nyílik innen a Pesti-síkságra és a Központi-Börzsönyre, emiatt régóta kedvelt turisztikai célpont. Az 1930-40-es évek óta turistaház és szállja szolgálja az ide látogatókat. Ugyanakkor a területen egyedülállóan értékes élőhelyek találhatók: a déli oldalt a hegyrészt egyik legszebb és védett fajában is gazdag andrózit mállyalgyepje urálja, az északi oldalon idős bükkösök és sziklaerdők találhatók. A Duna-Ipoly Nemzeti Park és a Natura 2000 hálózat részeként országosan védett és európai jelentőségű természetes terület.

A Duna-Ipoly Nemzeti Park Igazgatóság a nemzeti park területén kívül 8 tájvédelmi körzetben és 34 természetvédelmi területen lát el természetvédelmi kezelési feladatokat.

**KÉRJÜK ÖN S VIGYÁZZON AZ ITT ELŐFORDULÓ TERMÉSZETI ÉRTEKEKRE, SEGÍTSE AZOK MEGŐRİZÉSÉT!**

**WELCOME TO  
THE NAGY-HIDEG-HEGY!**

Nagy-Hideg-hegy (Great Cold Mountain) with its height of 864 metres is the third highest peak of Börzsöny Mountain. Due to the nice view to the Pest Plain and the Central-Börzsöny Mountain it is a popular tourist target. Since the 1930-40s there are also a guesthouse and bicycles serving the visitors.

The area is also rich in habitats of great value: one of the most beautiful grasslands on andesite outcrop with several protected species on the south part; old beech forests and ravine rock forests on the northern part. Being a member of the Natura 2000 network and also that of the Danube-Ipoly National Park it is a protected natural area nation wide and also of European significance. Beside the area of the National Park the Directorate also performs nature protective tasks on 8 landscape protected areas together with 34 nature-protected areas.
